

Ms. G was encountered during a HOT outreach at John Prince Park in July, 2014. She had been homeless on the streets off and on for 5 years battling many challenges along the way. After several futile attempts in various housing programs, Ms. G was never able to maintain stable housing. In August 2014, Ms. G moved into her own apartment through Palm Beach County’s Housing First Program where she was assigned a case manager and was finally able to tackle the many obstacles that stood in her way for years. During the next 16 months, Ms. G reconnected with several family members out of state and visited with them for a month during the summer. Also, during this time Ms. G rescued and adopted a cat and was invited to move back home with family up north. After careful consideration, Ms. G accepted her family’s invitation and will be leaving Florida and reunite with her family.

Ms. G truly turned her life around. In her words....

To whom it may concern,

I just want to let you know how much I appreciate all the help and support I received from

Housing First. I am truly blessed to have and awesome Case Worker. I feel Connie has been a life coach and I will remain in contact with her. She is in my opinion irreplaceable. I hope in the future I can stand on my own two feet . Thanks to all of you.

Ms. G
