III. **LMS PPL Fall 2021 – Ronnie Heen, PBCDEM**

- 20 total submissions
  - 1 project was a re-score
  - 1 project was returned to municipality
  - 91 total project on new PPL – had 73 projects, added 18 for a total of 91
  - Approximately \$247,000,000 estimated project costs
  - Will be reaching out to each agency that has projects on the PPL to see if there are any changes. Also any communities that are hitting their five year mark at which point they will have to resubmit their project. This way we are working with up to date information

IV. **LMS PPL Project Guidance and Scoring**

- Will be sending out meeting link to meeting, agendas and LMS Project guidance and scoring sheets.
  - <https://discover.pbcgov.org/publicsafety/dem/Sections/Planning-Local-Mitigation-Strategy.aspx>
  - This link will be updated this week and has the LMS, PPL, and supporting documents.

V. **LMS Members and Engagement:**

- Looking for recommendations for individuals for the LMS Working Group and LMS Steering Committee, and LMS Evaluation Panel
- Updating all contact information for municipalities in PBC

VI. **Watershed Planning Initiative** – have not received any new information.

Hoping there will be information in the Mitigation meeting next week and they will have info on phase 2 on the WPI.

- **This link is the Phase 1 information for the Watershed Planning Initiative from September.**
- <https://www.floridadisaster.org/dem/mitigation/watershed-planning-initiative/>
- **Ian:** There will be more info shared at the next meeting. It will be a prerecorded webinar that they will show for an update.
- **Ralph:** Some of us have been stuck in a class and some of the prerequisites for the new phase 2 will allow us to have points to move forward to another class.
- **Ronnie:** The members from FAU came in and resented the information and their original presentation is available on the FDEM site. It's something that PBC is interested in as well as WPB. Are there any other municipalities who are interested in pursuing this opportunity?
